Remedial works

We are proud of what we do here at Great British Kitchens and Interiors, so we like to keep our product happy as well as our great customers.

With Kitchens being the heart of the home, they are under an increasing amount of strain and subject to excessive use, so they need looking after; tweaking and checking over once in a while.

Think of it like servicing your car.

We offer a range of post-installation and remedial services to make sure that our Bespoke Kitchens remain in tip-top shape.

Following our conversation about the remedial work that you require, we ask that you please look over and agree to the following:

All remedial work that doesn't fall within our guarantee/warranty policy is chargeable at:

£ 80. 00 +VAT (£96 incl. VAT) per hour/per man

+ plus the addition of any materials necessary to complete the work.

Travelling to and from site is included in the time charged so please allow for this.

**** if the remedial is within the ULEZ zone, then we reserve the right to add the £ 12.50 charge for the visit ***

*For example, if you live 30minutes from our Workshop in Tonbridge, then add 1hour for travel to and from site.

**If the work requires TWO men, for example installing an Oven or Dishwasher, then please double the charge.

Great British Interiors.

All prices are subject to VAT.
